

Comments to keep KLOVE Stations.

1) KLOVE serves me as a resident of my local community by providing family friendly music and news without inappropriate commercials.

2) Without KLOVE, I would not have a station I could turn to day or night to hear good, clean, music and news every day. I would not have a station I could listen to where I know I could get music that expresses the Christian beliefs of myself and others in my community.

3) The services provided by KLOVE are in the public interest because they provide one of the freedoms we have in the USA to listen to programming that expresses one's faith while being respectful of those who listen.
